Meeting of Crows Nest Pass Ministerial Assn.

The February meeting of the Crows Nest Pass Ministerial Association was held in St. Alban's parish hall, Coleman, on Monday afternoon at 2:30.

In the absence of the president, Rev. Fred Dykes not only took the opening worship, but presided throughout.

Rev. Richard Clarke of Pincher Creek, gave a history of the Baptist movement within the Christian church, and an interpretation of the beliefs common to Baptist churches.

Contrary to common belief, the Baptists have not always insisted on immersion as the only method of baptism. The first English Baptists practiced sprinkling, but they believed baptism should be the primary Christian sacrament, and always symbolize the cleansing from sin of one who had already professed his or her faith in Jesus Christ as Saviour.

That is, it could not validly be administered to one who was not of age to understand and to make profession of mature faith.

After making contact with continental Baptist churches the English and American branches in the 17th century agreed that immersion was the original and scriptural form of the rite and the symbolism of dying to sin (being buried with Christ in baptism), to rise with Him in newness of life, was of such significance that it was worthwhile modifying church furnishings, overcoming climatic difficulties, and problems of water supply, to return to the New Testament practice.

The Baptists strongly favor the service of dedication for infants to compensate for the surrender of the symbolism of infant baptism as practiced in other churches.

Mr. Clarke rather expected warm controversy from representatives of other churches who were present, but most were ready to agree that his description of baptism as practiced in the Early Church was sound. They merely asked that the historical modification of the rite be accepted as possibly a valid development, at least not rejected as invalid.

The next meeting is to be held on March 17th in the Blairmore United Church.

St. Alban's Church Vestry Whist Drive February 17

The St. Alban's Church whist drives are becoming very popular as evidenced by the 28 tables present at the whist drive held last Monday, February 17 in the Elks hall, Coleman.

The popularity stems from the highly sociable and friendly evenings climaxed with excellent prizes and wonderful food.

The addition of extra prizes thru merchant donations of \$2 a table for all tables over 20, is certainly an added incentive to attend, as was proved this last drive.

The many winners were as follows—

First ladies, with a score of 178. Mrs. I. Splevak, a large ham donated by Zak's Meats and Groceries.

First men's, with a score of 174. Mr. P. Parry, \$7 cash, anonymous.

Second ladies, with a score of 174. Mrs. M. Joseph, an excellent towel and sponge set, anonymous.

Second men's, with a score of 174. Mr. A. Panek, 25 pounds of lard oil soap, donated by Canadian Oil Companies Ltd.

Third ladies, with a score of 174. Mrs. S. Kapalka, 10 gallons of gas donated by Anglo-American Exploration Ltd.

Third men's, with a score of 174. Mrs. M. E. Cornett, 10 gallons of gas donated by the Anglo-American Exploration Ltd.

The following four prizes were the result of merchant donations on tables over 20. Kindly donated by Holy's Store, Zak's Meats and Groceries, Freeman's Ltd., Modern Electric.

Fourth and fifth ladies and mens—Mrs. H. Caros, score 172; Mrs. B. Young, score 170; Mr. J. R. Atkinson, score 169; Mr. C. A. Freeman, score 167—each received \$4 cash.

Consolation prizes were awarded to Mrs. Beatrice Jones, score 133. Mrs. Irene Wood, score 133. A crystal water jug and ash tray donated by Henry Birks and Sons.

Coleman Elks Continue Good Work

Coleman Elks have again shown their good work by assisting two Coleman residents.

At a special meeting in the Elks hall recently, Henry Zak, exalted ruler of the Coleman Elks lodge presented a \$200 cheque to Mr. and Mrs. John Proc of Coleman. The money is to assist the couple in defraying heavy medical and special expenses they have incurred in attempting to cure an illness of their son Tommy.

A nine-year-old grade five student at the Coleman school, Tommy is suffering from cirrhosis of the liver, and he has spent at least one month in a Lethbridge hospital, after which he spent another month in the University hospital in Edmonton.

Mrs. Proc says attending doctors report Tommy's condition is improving.

Money for the donation comes out of the recently organized Purple Cross Fund sponsored by the Elks lodge which was instituted to aid any child in the world under the age of 16 years for medical care.

Help Fellow Elk

Mr. Zak also presented a \$100 cheque to Mrs. Kathleen Henry Raymond of Coleman, whose husband, as a member of the Elks, is at present in a Toronto hospital where he has undergone heart surgery.

Money for this donation came from the Coleman Elks funds.

During the past three years the Elks have paid off a debt of \$10,000.00 on a new building, the lodge purchased. This money included payment of taxes, the building alterations, remodelling and furnishings for the splendid hall which services the town of Coleman for many local functions.

With the exception of the sum of \$1350 paid to the Crow's Nest Pass Municipal Hospital, for a room a number of years ago, the Elks lodge during the past three years have donated \$89 to junior sports and pee-wee hockey, \$48 to the Spencer Dunford fund, \$70 to the Cecil block fire victims, \$157 to the Calgary Boys' Band, \$7 to the Mrs. L. Moore and Mr. Yilek fund, \$25 to The Salvation Army, \$150 in scholarships, \$25 to the Purple Cross fund, \$38 to the Red Cross fund, \$37.75 to the Jamie Siska heart operation fund, \$30 to the Korner fund and \$170 for hockey sweaters and socks for the Coleman bantam hockey team.

The Ladies' Curling Club in Blairmore held their third annual bonspiel in the Blairmore arena recently.

President of the club said the event was very successful. Draw master for the bonspiel was Milton Congdon of Blairmore.

Boys from Blairmore high school assisted the ladies by cleaning ice after each game while high school girls took over the kitchen to allow the ladies who operate the kitchen, to take part in the 'spiel.

For the two-day 'spiel rinks were entered from Blairmore, Calgary, Cardston, Pincher Creek, Fort Macleod, Helleve, Coleman and Lethbridge.

Winners of the four events held were:

First event—Field rink of Coleman, first; Hammer rink of Calgary, second; Larson rink of Fort Macleod, third, and the Rowe rink of Pincher Creek, fourth.

Second event—Kroll rink of Blairmore, first; Wolfe rink of Cardston, second; Kwassink rink of Coleman, third, and Chrystal rink of Blairmore, fourth.

Third event—Stewart rink of Fort Macleod, first; Douglas rink of Lethbridge, second; the Vassini rink of Blairmore, third, and the Burn rink from Pincher Creek, fourth.

In the final event on Sunday night the winners were:

Slater rink of Pincher Creek, first; Troitz rink of Coleman, second; Haas rink of Blairmore, third, and Brown rink of Blairmore, was fourth.

Thirteen pieces in a 'baker's dozen' originated when King Louis of France warned all bakers who gave under measure that they would be beheaded.

Annual Meeting Coleman School District No. 1216

The financial statement of the Coleman School District No. 1216, showed that the board had operated within its budget for the year, and that capital assets were now \$212,069.74, with the debt standing at \$28,160.00. The operational surplus is \$23,057.27 which amount is used at the beginning of each year for operations as the requisitions are not collected until March of each year.

The buildings, furniture and the equipment are in excellent condition, and well-balanced program is followed to ensure this condition. During the year new linoleum was laid in five rooms and seven rooms were painted. One side of Central school roof was re-shingled and new roofs were put on the high school and West Coleman school. The exterior of Central school was repainted and the trimmings were painted on all schools. The schools generally are roomy and bright, and credit is due the board for maintaining such high standards.

The School Inspector's report showed that the standard of teaching in the Coleman schools was very good and the facilities for the students were excellent. The inspector felt that no classroom should have more than 25 pupils per classroom.

It was pointed out that only three rooms had over 28 pupils, the highest was 34 pupils. One room had 18 pupils, this being the smallest class.

The school principal explained that the classrooms averaged slightly better than 25 pupils per classroom which would indicate that most rooms were being kept close to the number of 25 mentioned in the Inspector's Report.

The principal's report showed that the results of the departmental examinations were excellent. In grade IX over 90 per cent received passing marks, and in grade XII over 82 per cent of those writing grade XII subjects, received matriculation standing.

One grade XII student was awarded the Hotelmen's Scholarship and the Crows Nest Pass Teachers' award. Another was also awarded the Hotelmen's Scholarship which had been deferred from the previous year. The first and second awards offered for those students in the Crows Nest Pass taking up nursing were won by Coleman students. The average school enrolment for the year was 564 using 23 classrooms.

The book rental plan was introduced during the year, and it is felt that this plan will be welcomed by the parents as the cost of text books was quite high and a considerable saving can be had.

The ratepayers present congratulated the board for its work during the year and felt that the schools were being operated with maximum efficiency.

FRANK, Alta. — The Crows Nest Consolidated School Board held a meeting in the Frank school on Thursday night when T. J. Costigan was reappointed as chairman of the board. D. H. McEae recently re-elected to the office of treasurer at large was duly sworn in to office.

It was reported that G. Perrone was still operating the old buses to transport students to and from the schools in the district, but that the 45-passenger bus was now ready and awaiting complete inspection by the inspector before being put on the road.

The secretary, L. D. Hunsley, was advised to write to the Department of Education in Edmonton stating that the board is expecting a visit from a departmental official to discuss in detail the matter of boundaries of the Crows Nest Consolidated School District.

The department had recently suggested that the local district embrace the Passburg area.

Mr. Hunsley will also write to the Department of Highways requesting that steps be taken to improve the Hilerest railway crossing. Some six hundred children are transported across the railway tracks daily and the board is worried as the highway at this particular point goes down a steep grade at the bottom of which is the crossing.

Ethel Barrymore popularized the lines "That's all there is, there isn't any more".

With final games of the A-B-C-M. Hockey League completed over last week-end team standings are:

	P	W	L	Pts.
Cranbrook	12	11	1	22
Coleman	12	6	6	12
Great Falls	12	5	7	10
Fernie	12	2	10	4

In their final home league game Cranbrook Selkirks came back very strong in the final period to edge the Coleman Giants 4-3. At Great Falls the Americans won both ends of a doubleheader over the Fernie Rangers 7-6 in overtime and 9-7 to take third place in league standings, while keeping Fernie in the cellar spot.

In the playoffs which are expected to start toward the end of the month the Selkirks will meet Fernie Rangers in a best of three series, the first game to be played on Cranbrook ice. In the other semi-final bracket Great Falls and Coleman will play a four game series, two games in each centre, total points to count, and in the case of a tie, total goals will decide the winner.

Depending on the outcome of these two series will be the method of playoffs for the final games.

Large Bingo Jackpot Won

One of the largest crowds filled the Elks hall on Friday evening to try and win one of the largest bingo jackpots the Elks have given away.

However, only one woman was lucky in the person of Mrs. L. Huhnlak, who took home \$150.00. At the next bingo on Friday, March 7 the jackpot will be \$70 to be won in 54 numbers.

Other lucky winners for the evening were:

Groceries, Mrs. Hatalek and A. Dorusak, split.

Comforter, Barry Jones.

Luggage, Mrs. J. Sudworth.

Aluminumware, Mrs. A. Brunsak of Belleue.

Rifle, Mr. C. Sloman.

\$30 merchandise, no winner.

Consolation winner of chocolates was Terry Field.

\$25 cash, Mrs. L. Cerney, Frank Groceries, J. Goulding.

\$78 six number bingo, no winner — this time it \$85 at the next bingo.

Silverware, A. Galbraith.

Gas, J. Yella.

Rocking chair, Mrs. L. Olynok of Belleue.

Ladies' purse, Mrs. N. Johnson, Blairmore.

Consolation winners were M. Atkinson, A. Pitcher, E. Ledieu, A. Toppiano, Mrs. Beduz and Mrs. H. Jones.

"Mothers' Night"

About 30 mothers were present at the Club Pack No. 2 meeting, under the leadership of Mr. P. DeCocco, and Father D. Fleming on Monday evening, February 17.

The boys went through their drills, games, prayers and story telling with fine precision.

Several competition teams showed combinations of speed and skill and under the fine guidance of their leaders are learning much about the woods, besides using their sense of hearing and learning to obey commands.

Mr. DeCocco expressed his gratitude upon the fine turnout and felt that because of the mothers' interest the boys would be inclined to do their work with more pride.

He then mentioned his plan for a Father-Son banquet which he hoped would be as much a success as the "Mothers' Night".

All the mothers present thanked Mr. DeCocco by applause at the end of the meeting after which the boys were treated with hot dogs and pop.

Mrs. Jean N. Anderson Passed Away in Scotland

Word has been received that Mrs. Jean Nicol Anderson passed away at her home in Cardenden, Fifeshire, Scotland.

She was an old time resident of Coleman, having resided here from the year 1929 to 1947, when she and her late husband returned to Scotland and retired.

Left to mourn her death are three daughters and two sons in Scotland, also one son, James Anderson, of Blairmore.

DATLINERS FOR CROWNEST LINE — Rail about cars like the "Dayliner" above were put into service between Medicine Hat and Nelson by the Canadian Pacific Railway on February 15th. The stainless steel diesel-powered streamliners are air conditioned and designed for maximum comfort, each seating 68 passengers and capable of going up to 85 miles an hour. They carry their own power com-

Legion Curlers In National Final At Copper Cliff

OTTAWA, Ont. — The Canadian Legion's second national curling final will open at Copper Cliff on March 10th with Lieut.-Governor Keller Mackay throwing the first stone.

An event which will draw top Legion curlers from every province but Newfoundland, the national bonspiel climaxes months of elimination matches at branch, district and provincial levels.

Last year a team from Kamloops won the first nation-wide competition. Manitoba and Northwestern Ontario curlers tied with Saskatchewan for second place, and Ontario's Kirkland Lake team was in third place. New Brunswick and Alberta drew for the fourth position, followed by Quebec, Nova Scotia and Prince Edward Island.

The Lieut.-Governor will throw the opening stone at 9:30 a.m. He will attend a civic luncheon given jointly by Copper Cliff and Sudbury and in the afternoon he will turn the sod on a new curling rink for Copper Cliff.

In addition to the actual participants, a number of Legionnaires are expected to attend the 'spiel.

CGIT Holds World Prayer

Fifteen members of the local CGIT group attended a World Day of Prayer Service for CGIT girls at Blairmore on Wednesday, February 19th.

Leading the service were Sandra Rodinyak and Jean Burl.

Norma Jean McKay was the organist.

A social hour followed with the Blairmore CGIT hostesses for the evening.

Games and a sing-song were enjoyed followed by a lunch.

Annie MacTaggart, president of the Coleman group, thanked the Blairmore girls for their hospitality.

Mrs. M. McQuarrie and Mrs. R. Lowe attended the United Church Women's Association conference held in Lethbridge, February 20th.

Newspaper man, John Bassett passes at 72 years

MONTREAL (cp) — John Bassett, chairman of the board of directors of the Gazette Printing Co., Ltd., died Wednesday night in hospital. He was 72.

A native of Northern Ireland, Mr. Bassett joined the Montreal Gazette as a cub reporter in 1910 and in an association with the daily that lasted almost a half-century became one of Canada's most prominent newspaper figures.

He was chairman of the company since March, 1956. As president from 1937 to 1956 he guided the Gazette through the difficult years of after-depression and the Second World War and into rapid expansion in the post-war years.

He was elected to the board in 1913.

More than 90 per cent of tuberculosis in Canada is pulmonary tuberculosis, which is tuberculosis of the lungs, but the disease can attack all parts of the body.

Liberal Statement Of Policies

Statement on policies of the Liberal party of Canada by the Hon. Lester B. Pearson:

1—Tax Cuts to Restore Employment

The Liberal party believes that the quickest and best way to restore jobs and relieve unemployment is to increase consumer-spending through the reduction of taxes.

If given the mandate to form the next government by the people of Canada on March 31st next, our immediate program which we would propose to parliament would call for a tax reduction of 400 million dollars.

The tax reductions would be:
(a) Marriage Tax Allowance — Basic tax exemption for a married couple in the first three years of married life would be increased from \$2,000 to \$4,000. This measure would become effective this year and would apply proportionately to couples married since January 1, 1956.

This would be a saving to newly married couples, who pay income tax, up to \$290 a year. The estimated saving over the three years would be nearly \$900. The total saving in tax will be about 25 million dollars a year.

(b) Lower Income Tax Rates — A reduction of four percentage points on the rates of tax paid on the first three thousand dollars of taxable income.

(Present rates — on the first \$1,000 of taxable income, 13 per cent; on second \$1,000 of taxable income, 16 per cent; and on the third \$1,000 of taxable income, 19 per cent.)

Proposed rates would be — on the first \$1,000 of taxable income, 9 per cent; on second \$1,000 of taxable income, 12 per cent; and on the third \$1,000, 15 per cent.

(The present rate on the fourth \$1,000 is 17 per cent, and this would remain unchanged. The proposed rates would make the tax rate progressive.) This proposal means that for the great majority of Canadians whose taxable income does not exceed \$3,000, a tax reduction of about 25 per cent of their present tax.

For Canadian taxpayers as a whole it means a tax saving of about 250 million dollars a year.

(c) The special excise tax on cars — The abolition of the present 7½ per cent tax.

If the full reduction is passed on to the consumer it will save the Canadian public about 60 million dollars a year.

(d) Tax reduction for small business — Reduce the present rate of 20 per cent corporation tax to 10 per cent on profits up to \$10,000 a year.

(At present the corporation tax is 20 per cent on profits up to \$25,000 a year.)

The estimated saving of this measure is 25 million dollars a year.

(e) Accelerated depreciation — To encourage new investment increase the present rates of depreciation by between 50 and 100 per cent on capital expenditures started in the fiscal year beginning April 1, 1958.

2—National Advisory Board On Economic Development and Automation

Purpose of board:

(a) To study long-term measures to assure a high level of employment and to minimize for workers the consequence of automation by providing for restraining programs, for better mobility and other progressive measures.

(b) To plan programs for long-term investment and development which will ensure the steady progress of the Canadian economy and sustain full employment.

Composition of the board:

Representatives in industry, Labor, Agriculture and the Universities.

3—Labor —

(a) Legislate for a national minimum wage and for minimum working hours in all work under government contract and all industries under federal jurisdiction.

(b) In order to provide special incentives for work to be carried on in the winter months whenever possible a Liberal government would set an example to private enterprise and to provincial and local governments by carrying on some kinds of work even though they are expensive in the winter. Wherever appropriate, provision would be made in federal contracts

for the payment of adequate extra costs for winter work; and a Liberal government would offer effective grants-in-aid to municipalities and other local authorities to enable them to do the same.

4—Housing—

Liberalize the current procedures on the valuation of houses and lower the income requirements under the National Housing Act.

5—Municipal Loan Fund—

Establish a Municipal Loan Fund in order to make available additional finance on a long-term basis for major municipal improvements. The exact scope and administrative set-up of the fund would be settled in consultation with representatives of the provinces and municipalities. It would supplement not replace, existing methods of financing for normal municipal purposes.

6—The North—

An important feature of the Liberal party's policy for economic growth and expansion is the development of the North. Rail transport is fundamental to the development of this area.

A Liberal government would, promptly, undertake the construction of a railroad to Great Slave Lake. The estimated cost of this project is 60 million dollars.

7—Highway Development—

(a) Atlantic provinces — special assistance for the building of trunk highways in all four Atlantic provinces.

(b) After completion of the present Trans-Canada Highway to construct a new fast trunk road from Winnipeg through Saskatoon and Edmonton, to the Peace River and the Pacific coast.

8—Social Security—

In accordance with the policy defined in the social security resolution at the Liberal convention, a new Liberal government would take these immediate measures:

(a) Sickness Insurance — Alter existing legislation so that a worker would qualify for unemployment insurance benefits because of illness, on the same basis as the benefits paid to workers who lose their jobs.

(b) Old Age Assistance — Unmarried women and widows be eligible for Old Age Assistance payments at age 60 instead of 65.

(c) Family Allowance — The payment of family allowance for children to age 18 if the boy or girl continues studying.

9—Agriculture—

(a) Farm prices — (i) bring wheat, oats, barley under definite price supports. The minimum level of support for the 1957 and 1958 crops will be \$1.50 — basis No. 1 Northern at Port William — with equivalent prices for other grades of wheat and for oats and barley.

(b) Farm development bank — Establish a farm development bank to ensure that all Canadian farmers have ready access to sufficient capital to make their farming operations efficient and profitable.

10—Youth—

In consultation with the provinces and working through the national conference of Canadian universities establish 2500 Canada scholarships and 7500 Canada bursaries for university students; and with federal capital, establish a university loan fund.

(a) Scholarships and bursaries:
(i) Scholarships — to be awarded for four years and worth \$1,000 per year.

(ii) Bursaries — to be awarded for four years and worth \$500 a year.

The awarding of the scholarships and bursaries would be by open and competitive examination conducted in the two official languages by the national conference of Canadian universities.

(Estimated number of scholarships and bursaries from the fourth year on 40,000. Estimated cost with 40,000 scholarships and bursaries, 25 million dollars a year.)

(b) University student loan fund — To be administered by the national conference of Canadian universities;

—Available to students according to conditions to be defined by the conference;

—Loans would be interest free during university attendance and for the first year after graduation;

—Loans would be repayable in four years with interest at the rate of four per cent.

Chamber Commerce Week April 13 - 19

Chamber of Commerce Week will be celebrated across Canada April

13 - 19, President Ralph C. Pybus of the Canadian Chamber of Commerce announced recently.

In making the announcement he released the text of a message from the Prime Minister endorsing the work of the Chamber movement which, Mr. Diefenbaker said, "plays a vital role in the life of our country at the community, provincial and national levels."

Mr. Diefenbaker continued — "Boards of Trade and Chambers of Commerce are closely identified with the interests of all citizens because through the united and voluntary effort of business and community leaders, they help build better communities and create conditions favorable to our future growth and prosperity."

"Among the many important functions of the Chamber movement is that of presenting views of all business, large and small, to municipal, provincial and federal governments."

"I hope that Chamber of Commerce Week will have great success in focussing attention on these good works."

There are Boards of Trade and Chambers of Commerce in more than 750 communities in every province and special programs and events will be organized throughout Chamber of Commerce Week to bring home to all Canadians an understanding and appreciation of the role these organizations play in community building for the national good.

Pepsi Trophies At Stake Canadian Junior Skiing

The 1958 Canadian Junior Ski Championships are scheduled for Rossland, B. C., March 1 and 2.

The week-end will see ski teams from all of Canada competing for two Pepsi-Cola team trophies, as well as individual competition for the downhill, cross country, slalom and jumping trophies.

At last year's junior championships, the honors were well spread out throughout the divisions. The team award went to the Quebec division A team: Bill Drysdale, Peter Guy, Peter Ryan and Tony Blair. The Downhill trophy was taken by Hugh Harris of Quebec division, while Karl Kratz of Sudbury lived up to expectations by coping the cross-country award.

Port Arthur's Gerald Gagnon led the slalom event and Claude Tréhan of Three Rivers flew to victory in the jumping competition. The girls' slalom and alpine were both taken by Fay Pitt and the junior A and B girls' downhill was won by N. Holland. A substantial portion of the various ski teams' travel expenses will be borne by the Pepsi-Cola Company of Canada Limited as they were last year. The remainder will be covered locally through the zone committees and individual clubs.

Letter to the Editor

Edmonton, Alberta,
February 14, 1958.

Mr. T. Holstead,

Publisher,
The Coleman Journal,
Coleman, Alberta.

Dear Mr. Holstead:

I feel sure you will be pleased to learn that the Christmas Seal Sale has again been brought to a successful conclusion. Our pleasure in the result is emphasised in the fact that 100,000 individuals in Alberta evidenced interest in our work through their donations, and to them we extend our sincerest thanks. We also express our grateful appreciation to the many individuals and organizations who aided materially in promoting the campaign.

On behalf of the Directors and all committees of the Alberta Tuberculosis Association, I wish to express our sincere thanks to The Coleman Journal for their valuable support.

During 1957 more than 105,000 people attended the mobile surveys conducted in various areas throughout the province in co-operation with the provincial Department of Health, and the chest clinics in Calgary and Edmonton city halls. Official figures from the Division of TB Control for the year are not yet available but indications are that the number of new cases of tuberculosis which require hospitalization will be higher than the year before. Furthermore, the number of people found to be carrying the disease, although inactive at the time of survey, remains high and there is ample evidence that we have still a long way to go before tuberculosis may be regarded as other than a major health problem. We have improved our equipment and expanded our operations to meet the challenge.

Yours faithfully,
R. E. ASHBURNER,
President,
Alberta Tuberculosis Assn.

Gas Export Required Now

CALGARY, Alta. — "Proven probable and possible reserves, as published by the Canadian Petroleum Association in this report, are sufficiently great that there is a need for immediate export of oil and gas to economic markets other than local ones in order to assure the continuing development of these reserves."

These words introduced a brief submitted (February 11) by the Canadian Petroleum Association to The Royal Commission on Energy known as the Borden Commission sitting in Calgary during its nation-wide studies of Canada's energy resources and requirements.

The Association, which represents companies engaged in the exploration and development of 97 per cent of Canada's oil and natural gas, has conservatively estimated 50 billion barrels to be possible recoverable oil resources of the four western provinces and the Northwest Territories.

Gas reserves ultimately available are estimated by the Association to be 300 trillion cubic feet, compared with the less than 30 trillion proven and probable reserves up to the end of 1957.

The Association's brief sets out these details:

"In Western Canada to the end of 1957 there were 12,250 oil wells drilled developing approximately 3.8 billion barrels of oil or an approximate total of 310,000 barrels for each oil well. This is in comparison with around 130,000 barrels for each oil well in the United States in the period 1925 to 1955. Thus from the standpoint of both total wells and oil wells drilled, the discovery rate in Western Canada for its short history has been, better than in the considerably longer period in the United States. Thus there is a considerable margin of safety in making the assumption that the discovery rate in Canada for many years to come will be at least the equivalent of what it has been in the United States over a long period."

"During the period 1951-56, the industry invested \$1.89 in exploration and development of reserves for every dollar of operating income thus incurring a cash deficit of \$936 million. The deficit is still increasing after more than 10 years of successful operations."

"The extensive investment of \$1,991 million has been made with the belief that the reserves found — both oil and gas — could be produced and sold with a reasonable dispatch. The strength of the industry and future expansion depend directly on the prospects for the recovery of not only the pro-

cessed cash deficit, but also the recovery of new investment in a reasonable period of time. The investment climate must be kept sufficiently appealing to foster re-investment and to attract new risk capital."

From the land-holder's standpoint there have been many changes over the years. The Canadian Petroleum Association brief states "In the early stages of exploration in Western Canada 10¢ per acre was not an uncommon amount."

Following the discoveries in Alberta in the years 1947 to 1950, industry competition and the ordinary application of the law of supply and demand resulted in a sharp increase in the price of freehold acreage and \$100 per acre was not uncommon for land which was highly speculative, or in industry technology 'wildcat' acreage.

"Generally speaking it may be stated that the mineral owner is offered the fair 'going rate' for a lease of his minerals for a definite term and is paid an annual rental during that term if the lease fails to drill. He is assured of protection against drainage of his property and receives a gross royalty on one-eighth of the proceeds from production from his land."

"In addition it is general practice in Western Canada to pay the

mineral owner an additional separate amount for the use of the surface of his land for the purpose of drilling wells and erecting production facilities."

Because of the nature of mineral rights holdings in Canada, one seldom hears of land-owners becoming millionaires overnight. But because of the tremendous petroleum industry investment of \$1,991 million to date, no one in Canada has not benefited materially — however, indirectly it may be — from the exploration and development of petroleum.

That these benefits may continue for the people of Canada and those of our people who are engaged in the petroleum business, we are assured thanks to conservation methods and conservative legislation.

As the Association brief states: "Conservation agencies in Western Canada recognize that production rates must be controlled to prevent wasteful practices. Each of the four western provinces has regulations designed to limit the production rate from an oil well to a level which is considered safe. These upper limits are referred to as Maximum Permissible Rates or MPRs. They are functions of the reservoir rock and fluid characteristics, the type and strength of the drive mechanisms, the well spacing, and the portion of the reservoir that has been developed. British Columbia, Alberta and Manitoba assign each well in a reservoir the same MPR. Saskatchewan makes a separate MPR calculation for each well based on the properties of that well. The formulae used by the different provinces are essentially the same."

"One of the fundamental necessities for conservation is that the volume of oil and gas produced must not exceed the market demand. The present situation in western Canada is that the demand for Alberta crude oil is less than the provincial productivity. As a result the available market must be prorated among all fields in Alberta. Pro-rating is not yet considered necessary by the other provincial governments."

The Association brief points out that with proper incentives, the industry will make even more significant progress which will be of material benefit to Canada's economy, and to all people.

Social Credit Against Calling of Present Election

I would like first to state the Social Credit reaction to the calling of the election at this time. We feel that this was the very poorest time of the year in which an election could be called. The middle of the winter is bad all over the West and in the North especially, people will find it very difficult to get around and to get out to the meetings to hear the candidates speak.

They will also find it very difficult to get out to vote on election day because March 31st very often is in the middle of a time of bad weather in large sections of Canada.

Moreover, I am sure that choosing March 31st was a political dodge on the part of the Prime Minister who knew full well that most of the provincial legislatures would be in session from February on until perhaps April, and that the campaign effort would be minimized at least on the part of provincial organizations because of the members of the legislature being tied up with their work in the session. There could have been a better time chosen, and especially there could and should have been a financial statement issued to the people of the country in the form of a Budget and the Budget White Paper, so that they would know the condition of the economy and the prospects for the coming year. It is plainly clear that the Conservatives realized that they just did not have the answer to economic stagnation, growing unemployment and the "tight money" problem, and they felt that they must rush to the country quickly before that fact became commonly known.

Now just a word about Mr. Pearson's election program declaration. My first reaction is that it is good for a political party like the Liberals to spend some time in meditation in the political wilderness to get their hearts and minds in tune with the will of the people. The very things that Mr. Pearson has emphasized in his election program are things which the Liberals ridiculed when the Conservatives made the same declaration a few years ago. There has been a great change of heart upon the part of the Liberals, especially with regard to lowering of taxation and helping the farmers, and

that sort of thing. One wonders why the Liberals couldn't have done some of the things that Mr. Pearson promises the people a year ago, or two years ago, or even three or four years ago, when things were booming in Canada. As a matter of fact it begins now to appear to the average Canadian that the Conservatives and the Liberals are merely trying to carry on a sham battle and to outdo each other in an auction sale to get the support of the people.

And now, just a word about the Social Credit effort in this campaign. We will not know exactly the number of candidates we will have running until at or near the nomination day. We have word from all of the provinces now that they are busy getting their candidates and are making an effort to have a fair number standing for election.

It appeared in the press that there would be no Social Credit candidates from Manitoba, but that is not true. I know positively that there will be no less than six and probably considerably more than that. However, we will have to wait until the nomination day or near it before we can say exactly what number will be running.

We expect to carry on a campaign, Canada-wide, it may be that the emphasis will be placed on the campaign in the West where undoubtedly either a full slate or a near full slate of candidates will be placed in each province. Certainly we are not confining our effort to any region. The campaign will be carried on much the same as last year except that weather conditions will probably make it necessary to make use of TV and radio to a greater extent than we did last year.

I'd like to mention the regional conferences we are holding at the present time. For the first time, the Social Credit movement decided to take to the people the National Convention rather than call one in a central place and invite whoever we could get there to come. We felt that under conditions like these we should not compel them to travel great distances, and so we decided to divide the whole of Canada into four regions to give the people a chance to say what the election program should be.

We have already held one Regional Conference for the province of Ontario and Quebec in Ottawa, and will over 200 came from the two provinces to listen in and take part in the building of our election program.

French and English sat side by side in complete harmony and I consider that it was a complete success.

Our second conference will be held on Friday and Saturday of this week in the city of Vancouver, and involves the two provinces of Alberta and British Columbia.

Further work will be done in that conference on the election program and plans will be laid for the campaigns of these two provinces.

The third conference will be held next week on the 19th in Brandon, Man., involving the Saskatchewan-Manitoba region.

Following that I will be coming back to Edmonton to sit down here to put the resolutions that have been pounded out in the regional conferences into the platform.

Effective date freight rate increase set at March 1

KELOWNA, B.C. — The B.C. Tree Fruit Industry welcomes the action of Prime Minister Diefenbaker in rolling back the effective date of the latest freight rate increase at least to March 1st.

Steve Webster, traffic manager of B.C. Tree Fruits Ltd., when questioned recently, said that this represented excellent progress towards the first objective of a three point industry program for reduction of transportation cost.

"When news was received just after Christmas of the last 3.6 per cent increase awarded the railways by the Board of Transport Commissioners," Mr. Webster said, "it was recognized that we had a three-pronged objective before us."

"First, we protested the increase to the board, calling for exemption for B.C. fruit shipments until after the board hearing scheduled in Kelowna for March 10."

"Secondly, we began to lay the groundwork for our case for lower Commodity Rates to present to the board in March. This will be a major project for a busy desk at Tree Fruits to contend with over and above our regular duties, but we are confident that we have a lot of convincing material to place before the board."

"Thirdly, we have a case to put before the federal government for a measure of long haul freight rate subsidy similar to that granted

elsewhere in Canada. This may take a tremendous amount of co-ordinated effort to put over, and we must solicit widespread support without delay."

THE UNIVERSITY PROGRESSES WITH ALBERTA

The University of Alberta has seen tremendous growth since its establishment more than 50 years ago. The beginning curriculum was just two areas only, science and the liberal arts, taught at Edmonton. Today every type of professional school is found within its scope. From the initial opening in Edmonton the University of Alberta has extended to other parts of the province. A branch in Calgary, the School of Fine Arts in Banff and the junior college at Lethbridge are all extensions of the University of Alberta. The university, its operation and expansion is another government service maintained for the people of Alberta. Government grants have resulted in the construction of fine buildings for the establishment of a wider range of courses available to students.

UNIVERSITY PLANS FOR THE FUTURE

The University of Alberta continues to expand and grants from the Government of Alberta this year will assist in several large expansion and construction projects. These include a Physical Education Building, a six-storey addition to the Medical Building, a new building for Chemistry and one for Physics and Mathematics. The addition to the Medical Building will provide increased facilities for medicine, dentistry, pharmacy, nursing and physiotherapy. New university buildings are being planned on a 325 acre site in Calgary which was given to the university as a gift from the city.

PROVINCIAL GRANTS TO THE UNIVERSITY OF ALBERTA

Government of Alberta grants to the University of Alberta during the current fiscal year total \$4,521,740. These grants cover the cost of operation of the university and the financing of university building projects.

University construction projects this year received a grant of \$2,170,740 and an additional \$200,000 for furnishings.

The operational grant was \$2,225,000 which with an enrollment of slightly more than 5,000 pupils amounts to about \$500 per pupil attending the University of Alberta.

GOVERNMENT SERVICES ARE MOST EFFECTIVE WHEN KNOWN AND USED

Personalities IN THE NEWS

Mr. F. Frey of Pincher Creek was a recent visitor at the home of his son-in-law and daughter, Mr. and Mrs. J. Montalbetti.

Mrs. Ron Jenkins and two children of Cranbrook, B. C., visited last week at the home of her mother, Mrs. M. McQuarrie.

Mr. and Mrs. J. Hanrahan visited in Calgary on Sunday with the former's father, Mr. J. A. Hanrahan, who is a patient in the General Hospital.

Mr. and Mrs. P. Meroluk of Turin were Coleman visitors over the week-end.

Mr. G. D'Amico has gained employment in Calgary.

Mrs. J. Corney and baby son have returned to their home in Calgary after visiting with her parents, Mr. and Mrs. G. D'Amico.

A number of friends from Coleman attended the funeral of Raymond Hutchins in Cowley on Tuesday.

Word received from Mr. and Mrs. W. Lonsbury of Nordeck reports they are enjoying their new home and wish to be remembered to all friends here.

Mr. Ronald Fyfe was a Calgary visitor on Sunday when he visited his uncle, Mr. Dave Roberts, who is a patient in the Holy Cross hospital.

Miss Frances Dibblee of Calgary visited her father, Mr. W. Dibblee and her sister and brother-in-law Mr. and Mrs. G. Muspratt, over the week-end.

Mr. and Mrs. A. Haysom and children of Lethbridge visited the former's sister and brother Miss Edith Haysom and Mr. Hubert Haysom over the week-end.

Mr. and Mrs. J. Park and two sons spent the week-end at Brooks.

Capt. E. Fontana and son Roger, of Calgary visited Mr. and Mrs. J. Rogers last week. Mrs. Rogers accompanied them back to Calgary where she will spend a short holiday.

Word was received from Mr. Dave Gillespie, a former Colemanite now residing in Vancouver, that he is not enjoying very good health at present. Friends in Coleman wish him a speedy recovery.

Mr. Jo Jo Zak was a Calgary business visitor this week.

Mr. O. Fry of Calgary is in town this week visiting old friends and relatives. While here he is the house guest of Mr. and Mrs. A. Phillips.

Miss Gail Murdoch, nurse-in-training at University hospital, Edmonton, is visiting her parents, Mr. and Mrs. S. Murdoch.

Mr. and Mrs. J. Bagan, accompanied by Mrs. M. Ewchyn, of Calgary, visited their sister and brother-in-law Mr. and Mrs. J. Atkinson over the week-end.

Mrs. J. Goulding is a patient in the Municipal hospital, Lethbridge. Friends wish her a speedy recovery.

Friends are pleased to see Mrs. T.B. Smith around again after being confined to her home due to illness.

Coming Events

The Junior C.Y.O. will hold a Bazaar and Tea on Saturday April 19, in the Italian hall.

Victoria Rebekah Lodge will hold their annual Mother's Day Tea and Bazaar on Sat., May 3rd.

St. Alban's Church Vestry Whist Drive in the Elk's hall, Coleman, on Monday, April 14, at 8 p.m.

The Ladies' Aid of St. Alban's Anglican Church will hold St. Patrick's tea and home bake sale at the home of Mrs. J. Montalbetti on Friday, March 14 from 2 till 5 p.m.

The Ladies of the Italian Lodge, Coleman, will be holding their annual Mothers' Day Tea and Bazaar in the Italian hall on Saturday, May 10—Watch for ad.

Advance announcements of Teas, Bazaars, etc., will be run in our news columns PROVIDING that arrangements have been made for the running of an ad covering the event. OTHERWISE a charge of 2c per word will be charged for these announcements.

A helpful badge for a cub is the Sewing Badge. You must be able to sew, knit, or darn a useful article as well as using them often. Every cub should pass this test because it will be useful in the future.

Coal Miners to Unite in Plea To Government

Canadian coal miners will appeal, after election of a new government, for help to alleviate unemployment and assistance to the industry, Ed Boyd, acting president of District 18, of United Mine Workers of America, said on Thursday.

The three districts of the coal miners' union will submit a joint representation to the new government "to impress again the need for immediate action to assist the coal industry," he said.

The representation will be made by U.M.W.A. District 18, Western Canada, District 26, Nova Scotia and New Brunswick, and District 50, Eastern Canada.

But, meanwhile the government was idly sitting by, while western Canada's coal industry was facing one of the most severe depressions in its history and dissatisfaction and unrest were rising among the miners, he charged.

A survey of the situation prevailing in District 18, indicated developments were reaching a stage where most of the 2,000 miners unemployed or on part-time work were becoming desperate.

Aggravation of the situation was anticipated because layoffs of many more of the 6,000 membership of District 18 was feared in view of continued deterioration of conditions in the industry, he said.

Will Be Critical

Studying the recent letter of the Hon. Paul Compton, minister of mines, refuting District 18 suggestions aimed at contributing to alleviation of the crisis, Mr. Boyd revealed, union officials under prevailing circumstances feared dissatisfaction among miners might mount further when being informed about the communication.

"There is no doubt the miners of District 18 will be highly critical of the letter depriving them of hopes still held," he asserted.

But it was planned, nevertheless, to inform all local unions of District 18 of the full contents of the letter.

Refute Proposals

Refuted proposals of District 18 include tariff raise on imported coal; higher subvention on western coal moving to Ontario; a quota on imports of foreign coal; all federal institutions to use Canadian coal; all thermal power plants to use coal.

Miners were not pinning hopes for early relief of large-scale unemployment here on the announced Canadian coal trade mission to Japan nor on the announcement of the minister the government was preparing a "comprehensive study of the Ontario market on the situation in regard to the movement of western coal which will be available in the course of the next few days," Mr. Boyd said.

Commenting on the recent government decision to give Canadian coal a 20 per cent competitive advantage over imported coal in purchases for government buildings and installations across the country, Mr. Boyd said resignedly "It's a pittance".

It was estimated that the new policy might gain 50,000 tons for Canadian producers in the Maritimes, and in the west and retain another 50,000 tons that might have been lost to U. S. competition in the near future. The bulk of the benefit from the policy was expected to go to the Maritimes.

"We appreciate the move but it is certainly no solution to the unemployment situation here," he said. Speaking on behalf of District 18 he said the union was especially disappointed that the government had refused suggestions made by the organization, without making an attempt to offer any solution to the problems facing the miners here having prospect of success, although the union had asked for such suggestions.

Johnson & Johnson Again Sponsor U. Scholarship

Johnson & Johnson Limited, of Montreal, announced that it will again sponsor a university scholarship contest.

The contest was held for the first time in Canada last year and was welcomed by leading Canadian educationists. It produced six Canadian scholarship winners who were awarded paid-up educational policies having a total value of \$8000.

The Johnson & Johnson scholarship contest in Canada is part of an overall contest sponsored in conjunction with the U. S. associate company. Total value of scholarships awarded amounts to \$75,000.

000.00.

Entries this year will again be judged by eminent Canadians—along with a panel of leading American educational authorities.

The Canadian group consists of Dr. Colin B. Mackay, president, the University of New Brunswick; Mr. Jean Bruchesi, under secretary of the province of Quebec, and Dr. G. E. Hall, president the University of Western Ontario.

Grand prize in the scholarship contest is a \$10,000 paid-up policy for education. There are also two second prizes having a value of \$5,000 each. The other policies range from \$2500 to \$1,000.

A total of 49 paid up policies is being offered this year for the best 50-word essay on "A Good Education is Important Because . . ."

The contest, which runs until May 5, 1958, is open to any Canadian of any age through use of an official blank available at retail outlets throughout the country.

However, only those younger than 20 years and one month as of May 15, 1958, are eligible to receive a prize. Contestants over that age must designate a person under 20 years and one month as their beneficiary.

Johnson & Johnson, leading manufacturers of surgical dressing introduced the scholarship contest last year as part of its corporate policy to afford greater educational opportunities among young Canadians.

Egypt, Syria are linked

President Nasser of Egypt and Syria's President Shukri El Kuwari have welded their countries into one republic — the United Arab State.

Documents sealing the union were signed at Cairo as wildly cheering throngs hailed the birth of the new state. Crowds waved banners and the Egyptian and Syrian flags in a mass public rally outside the Cairo government house. Kuwari and most of his cabinet had flown from Damascus to Cairo to conclude the pact, uniting 23,000,000 Egyptians and 4,000,000 Syrians.

The pact of union will make the two nations — chief exponents of

the policy of "positive neutrality" between East and West — a single republic with one president, one parliament, one army and one flag.

Some sources said Cairo will be the capital city, and Nasser the union's first president.

In an interim period following the proclamation, a new constitution and over-all president for the Arab State will be chosen by plebiscite.

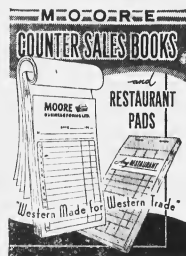

Kuwari declared "Let the world know that a new pact for Arab nationalism has been born and that it will be a great turning point in the events of our era."

Banks reduce interest rate

MONTREAL (cp) — The Royal Bank of Canada and the Bank of Montreal have announced a reduction in basic interest rates on loans to 5 1/4 per cent from 5 1/2 per cent, effective at once.

The move was indicated recently when the average rate of yield on weekly treasury bill sales dropped a relatively sharp one-half per cent in a two-week period. A corresponding drop in the loan discount rate of the Bank of Canada followed. The rate adjusts weekly to a figure one-quarter of one per cent above the average yield on treasury bills.

An ancient law of India called for the widow to cremate herself on the funeral pyre of her husband.
